# AC 350W

## Window AC unit 3,5kW

### In brief

AC 350W is a compact Window AC unit which is developed for industrial usage. The system is compressed as much as possible due to easy mounting.

AC 350CW is built with use of stainless steel AISI 304, and quality components, to ensure high performance regardless of external influence and environment.

The unit is available for customization and can be built according to the specifications of the customer.

### Product data

Height:	340 mm
Width:	600 mm
Length:	650 mm
Weight:	45 Kg
Power:	230V

Fan capacity evaporator	550 m <sup>3</sup> /h
Power consumption max	9,8 A
Cooling capacity	3,5 kW
Fill amount	1200 gr
Refrigerant	R-134A
Evaporating temperature	5°C
Condensing temperature	+40°C
Casing	AISI 316
Operation of unit	On/Off switch and thermostat
